Aiming 1 book/month

Myriam Anki

Tech Intern

Hello! I'm Myriam, a passionate spirit with a strong desire to learn.
Currently doing projects at 42Paris to learn more about security, data, algorithm, machine learning... I am looking for a 6-months internship for February 2023.

Work experience

Freelance - ERP Misc development

From January 2023 to March 2023 Audika Group Genevilliers

- Wrote SQL requests to filter patients for Audika operators to stop loosing time
- Created new features. Ex: Agenda, data export
- Debugged the ERP (in PHP)

Fullstack Laravel Angular Ionic

From November 2020 to June 2021 Pongo Paris

- Implemented automatic IOS/Android build, deploy and live update on 500 connected devices
- Deployed manually new app version with XCode: App Store Build & deploy
- Wrote documentation on Notion
- Created an international number selection on the tablet app

Laravel Fullstack Mission

April 2021 Dauphine Junior Consulting Paris

Freelance mission with 42Junior (Junior Company association of school42)
- Updated project from Laravel 5.8 to Laravel 8
- Developed student management interface with different level of access
- Implemented an automatic .docx, .xlsx and .pdf generation with PhpSpreadsheet

Laravel Angular Ionic Fullstack Internship

From May 2020 to October 2020 Pongo Paris

- Refactored backend APIs code
- Established clean code principles
- Wrote test scripts on postman (javascript)
- Wrote swagger documentation (OpenAPI)
